August 6, 2003

Dear Dr Schulz Poquet

Thank you for submitting your manuscript entitled "An Astronomical Test for the Second Postulate of Special Relativity Theory". However, we regret that we are unable to publish it in Nature.

It is Nature's policy to decline a substantial proportion of manuscripts without sending them to referees, so that they may be sent elsewhere without delay. Decisions of this kind are made by the editorial staff when it appears that papers are unlikely to succeed in the competition for limited space.

In the present case, while your discussion and proposed test may well be of interest to specialists, I regret we feel that the paper is inappropriate for Nature.

I am sorry that we cannot respond more positively. I hope that you will rapidly receive a more favourable response elsewhere.

Yours sincerely

Dr Leslie Sage  
Senior Editor, Physical Science  
Nature
