Re: MS #4083L

Dear Dr. Poquet:

We received your letter to the editor on experiments to detect ether and appreciate your sending it to Physics Today. After reviewing it, however, we have decided against publication. I'm sure you can understand that we receive more letters than we can publish.

We apologize for any delay there may have been in our coming to a decision; we are currently dealing with a large backlog of letters. We are enclosing your original manuscript.

Sincerely,

Gloria B. Lubkin  
Editor
